Allison Strickland Ricketts [teaches a CLE](#) for the [National Academy of Continuing Legal Education](#) about the USPTO's permanent post-registration audit program. This program requires trademark registrants who file a Declaration of Use to submit proof of use for two additional items in each class, beyond the product for which a specimen is submitted. This webinar will help you analyze the criteria that make a registration eligible to be selected for the audit and explain how to respond to a post-registration audit Office action. You will also learn best practices for preparing the Declaration of Use to ensure success if the registration is audited.

Purchase the CLE course from NACLE [here](#).
