

IAM and WTR

The Global IP Awards

EVENT PROGRAMME

IN AID OF

The Global IP Awards

It is a pleasure to welcome you to this year's Global IP Awards, which is jointly hosted by IAM and WTR.

Tonight, we honour law and attorney firms from across the globe for achievements that have led our team of researchers and journalists to name them the stand-out performers in their jurisdictions.

There are, of course, a range of awards designed to recognise IP excellence. However, we firmly believe that the Global IP Awards are the most prestigious. One reason for this is the rigorous and exhaustive research process that led to tonight's list of winners.

The final list reflects the collective conclusions of a set of highly experienced individuals, with deep links in both the corporate and legal IP worlds. Based in our offices in London, New York, Washington DC and Hong Kong, our research and editorial teams talk to the market day in, day out, throughout the year.

Between them, the teams produce both the IAM Patent 1000 and the WTR 1000 each year, as well as all of the news, analysis, special reports and data intelligence you can access on the IAM and WTR platforms.

What that means is that when the team comes together to decide who should win the awards that carry the IAM and WTR brand names, they do so with a depth of knowledge and insight that is unmatched anywhere else.

To be named a Global IP Awards winner, therefore, is an achievement of which to be very proud. So congratulations to all our winners. We are delighted to see you all here tonight and hope you have a great evening. Keep up the good work!

Trevor Little

Managing Editor
IAM and WTR

Programme

| | |
|-----------------------|---|
| 6:45pm | Drinks reception |
| 7:45pm | Seated dinner Opening remarks |
| 8:55pm | Awards presentations (<i>one representative from each firm to collect trophy</i>) |

The Global IP Awards

About IAM

IAM is the only intelligence service to provide global coverage of the IP value creation environment.

The trusted source of worldwide news, analysis and data on the management of intellectual property as a key business asset, it keeps counsel up to speed with the global issues and strategies that truly matter, giving you the detail and depth you need to operate and service clients successfully.

IAM gives you critical insight into the market landscape with a wide range of regular special and panel reports and surveys, helping you monitor your performance against its peers.

Navigate the world's IP landscape with our collaborative community research and in-depth reviews across key industry sectors. Develop your understanding of key market developments with our weekly long-read analysis, and assess the world's leading practices and experts with IAM Patent 1000 and IAM Strategy 300.

About WTR

WTR is the trusted source of worldwide news, analysis and data on the management of trademarks. It keeps you up to speed with the global issues and strategies that really matter, ensuring that you can advise with confidence and compete effectively.

WTR gives you critical insight into the market landscape with a wide range of regular reports and surveys, collaborative community research and regular international reports from the world's leading experts.

Gain critical insight from key figures with WTR Global Leaders; explore the likely direction of travel for the industry, with detailed analysis of the potential impact and opportunities via our elite panel report series; and access and analyse the world's leading trademark practices with WTR 1000, and the top corporate practitioners with WTR 300.
